- Building trusted client relationships at the senior level.
- Hiring, mentoring, and retaining top notch development teams.
- Create partnerships with resellers and vendors.
- Project Management and DevOps.

Vibe Coding Experience

- [Slack Bot for PMs/EMs for Project Tool Tracking](#)
- [Flash Cards for learning](#)
- [Web App for Q&A hosting](#)

Work Experience

Salesforce India India

Dec 2023 - Present

The most trusted CRM Platform.

My team focuses on building Core Commerce Platform for both B2B and B2C use cases. Part of the Salesforce Commerce team which is responsible for Payments, Shipping, Promotions, Coupons, Checkout and support for services like Cart. We are responsible for \$100million in revenue and have 200+ organizations adopting the product.

Senior Manager, Software Engineering.

- *Part of the Salesforce Commerce team, with a primary focus on elevating the global checkout experience.*
- *Team's vision is to provide a scalable, performant, high-quality, and frictionless checkout service for our customers*
- *Tasked with long term vision to assess product enhancements, API Availability and Latency.*
- *Responsible for the architecture, implementation and maintenance of critical API services enabling seamless retrieval and updating of commerce related data. My role encompassed leading cross functional teams, ensuring alignment with business goals and optimizing API performance.*

Key Achievements:

- *Successfully led the launch of multiple API endpoints that handled real-time product updates and new features.*
- *Increase in API performance through optimizations that reduced latency and improved data throughput, leading to enhanced user experience and faster transaction processing.*
- *Comprehensive API testing suite that increased the reliability and scalability of the API services, reducing production issues (plus code coverage).*
- *Fostering a growth-oriented environment that enhanced the technical capabilities and professional development of team members*

PayPal India

March 2022 – Dec 2023

Paypal is a financial technology company operating in an online payments system. It also operates as a payment processor for online vendors, auction sites and many other commercial users.

Senior Manager (M3), Software Engineering.

- *Part of the compliance and regulatory Technology org.*
- *Leading Development teams (6 disciplines, 4 managers and 43 member team).*
- *Tasked to strategize long term goals to improve performance, architecture and LT goal of externalizing services to the cloud.*
- *Worked closely with Top management (Sr Dir, VPs), Product owners, PMOs and dependent development/operations team to plan roadmap and product deliveries.*
 - *Front end React.*
 - *Microservices architecture.*
 - *Java*
 - *Oracle DB*
 - *AWS cloud stack (Teradata).*
 - *RESTful APIs*
 - *Test and Load Automation*
 - *CI/CD pipeline, Jenkins*
- *Hiring and team building*

Electronics for Imaging (EFI) India

October 2021 – March 2022 (6 months)

EFI helps print producers transition from analogue to digital with print technology, training, service and support that makes it easy and profitable. Part of the Fiery team.
